

With the Red Cross Here and Over There

Red Cross Will Collect Clothes For Belgians

At the request of Herbert Hoover, Chairman for the Commission for Relief in Belgium, the American Red Cross will conduct a drive during the week of September 23-30, to collect an additional 5000 tons of used clothing for the Belgians.

Of this 500 tons, 350 tons are allotted to the Pacific Division. Allotments are now being made and will be forwarded to all chapters in the Division within the next two or three days.

Hoover's plea to Henry P. Davidson, Chairman of the Red Cross War Council follows:—

"The ten million imprisoned people in occupied Belgium and France are facing shame, suffering, disease and some of them death, for lack of clothing this winter. They must be helped. I hope that the Red Cross will undertake a renewed campaign to obtain this clothing in America. It can come only from us. Your first campaign yielded magnificent results, bringing in full 5000 tons of clothing in good condition. But much more is needed if this war-ravaged people are to get through the winter in decency and safety. In the face of brutal coercion and spiritual suffering they remain splendidly courageous. This courage challenges any charity. Let us match the courage of Belgium by the generosity of America."

Among the garments asked for by the Red Cross are the following:

MENS WEAR

Shirts (preferably of light colored flannels) undershirts, underdrawers, trousers, coats, work suits (overall), suits (3 piece), shoes, overcoats, jerseys, sweater-vests, socks, (sizes 10 1-2 and 11).

WOMENS WEAR

Skirts, drawers, corset-slips, petticoats, blouses, skirts, suits (2 piece), overcoats, pinafores, shoes, cloth hats, knitted caps, stockings, (size 7 and 8).

BOYS WEAR

Shirts, union suits, undershirts, trousers, coats, suits, shoes, overcoats, jerseys, socks, sizes 1 to 9.

GIRLS WEAR

Dresses, skirts, overcoats, night-dresses, drawers, stockings, (sizes 1 to 6) undergarments, petticoats, suits (2 piece), blouses, shoes.

A little while ago, the cry on the western front was, "They shall not pass." Now it is, "They shall not stay." The Germans simply won't be allowed to do anything.

BOYS AND GIRLS WEAR
Hooded caps, pinafores, woolen union suits.

INFANTS WEAR

Swan-skin swaddling clothes, cradle chemises, bodices, cradle dresses, sweaters, bonnets, bibs, neckerchiefs, diapers, shoes, baby dresses, hooded cloaks, jackets, shawls, socks.

MISCELLANEOUS

Bed-ticks, bed-sheets, pillow cases, blankets, mufflers.

The following list of articles should not be included in donations made to the chapters in the Division.

Garments of flimsy material or gaudy coloring, ball dresses, high heeled slippers, etc.

Stiff hats either men's or women's straw, dress or derby.

Anything containing rubber; rain-coats, rubber boots, etc. (Rubber heels can easily be removed from shoes.)

Books, toys, soap, toilet articles. Notes or communications of any sort or description must positively not be sent.

New Red Cross Film

"Soothing the Heart of Italy" is the title of a new Red Cross film which will be released shortly. It portrays the now historic expedition of the American Red Cross into Italy. It is the second release made by the Red Cross motion picture bureau and brings actual scenes before the public. The reel gives a good idea of the wonderful achievements of the American Red Cross in aiding Italy to get back on her feet and to valorously hold the invader at bay.

It shows how Ambassador and Mrs. Page and the United States Consuls early took hold of relief work and how it went forward after the memorable address of Henry P. Davidson, Chairman of the War Council of the American Red Cross, in the Coliseum at Rome. Background for the pictures are the classic scenic delights for which Italy is noted, including the King's palace, the gondolas of Venice, the Piazza of San Marco, Bay of Naples, Vesuvius and up to the very pits of the great guns on the Piave.

Through the picture runs expressions of the wonderful gratitude of the women and children of Italy to the American Red Cross.

The war hopes of Austria are beginning to sag at the knee. The "Me too" nation is showing evident signs of distress, and the race has just begun.

BONDS AUTHORIZED HIGHWAY FROM PRESCOTT TO JEROME

The Capital Issues Commission has authorized the sale of bonds for the purpose of building the highway between Prescott and Jerome. This road when complete will cut off more than one-half the distance now traveled between Jerome and Prescott and bring much business to the county seat. The road by way of Verde is a long way round and some of it is about as rough as they usually make roads, while other parts are the real thing.

SAVE PEACH STONES AND NUT SHELLS

Poison gas was one of the first fruits of Kultur. It stings, blinds, and kills. Charcoal or carbon made from fruit pits and nut shells is used to neutralize it.

The government needs carbon. It asks the boys and girls of America to save:

Peach pits, apricot pits, plum pits, cherry pits, prune pits, hickory nuts, walnuts, butternuts and shells of these nuts.

METHOD

Select a leader of leaders. Give publicity to the campaign. Dry pits thoroughly in the sun. Bring them to a central collecting station. Notify the Chemical Warfare Service, Washington, D. C. Bills-of-lading, shipping instructions and bags will be sent.

Two hundred peach pits or seven pounds of nuts produce enough carbon for one gas respirator.

Carbon is made from fruit stones and nut shells.

It has been figured out that President Wilson will be compelled to pay \$24,595 out of his year's salary under the new war revenue bill. All Federal officials must pay the tax. One-third of the President's salary goes into the war chest, and he is giving three cheers.

Concerning Christmas Buying

The Council of National Defense authorizes the following statement:

"The Council of National Defense has heretofore emphasized the necessity of restricting Christmas buying during the coming fall for certain specific reasons which it has stated. These reasons are in brief the necessity for saving labor and material in the manufacture and sale of Christmas gifts and of saving the transportation and delivery facilities necessarily involved in the large volume of Christmas purchases.

After conference with representatives of leading industries and retail interests concerned, it is found that the manufacture of goods for the coming holiday season has been substantially completed, that the transportation of the goods to the point of sale is also largely done and that much of the material used for Christmas purchases, especially in the manufacture of toys, is the waste material derived from prior processes of manufacture.

The retail interests represented at the conference have agreed not to increase their working force by reason of the holiday business over the average force employed by them throughout the year and not to increase the normal working hours of their force during the Christmas season. They also agreed to use their utmost efforts to continue Christmas giving, except for young children, to useful articles and to spread the period for holiday purchases over the months of October, November and December. In order to

relieve the transportation facilities of the country from a congestion in the latter half of December which would be permitted, the retail interests represented at this hearing have agreed to cooperate further in the campaign heretofore and now being carried on under the auspices of the War Industries Board to restrict deliveries and to induce their customers to carry their own packages wherever possible.

The retail interests to which reference has been made have further agreed to make an announcement to the above substantial effect in their advertisements commencing to the early part of September and repeating same weekly thereafter. The above suggestions if faithfully and loyally put into effect throughout the country will make possible a continuance of the holiday custom without endangering the national interests thereby.

The Council of National Defense will cooperate in carrying out the suggested measures. It looks to organized business bodies of every nature and throughout the country actively to join in the movement as providing means whereby that cooperation between the government and the people can be had which alone will permit the continuance of holiday business in such form, on such scale, and by such methods as are consistent with the national welfare. This announcement is definitely conditioned upon loyal and thorough cooperation in spirit and in letter on the part of sellers and buyers throughout the country.

Save Your Worn Tires

SECRETARY McADOO

in a recent speech had this to say in regard to half-soled principles:

"Half-soled breeches and half-soled shoes are badges of honor. I wear them myself and am glad to recommend them. I like to think I am releasing leather for a soldier's feet, and clothing for a soldier's body."

The use of Gates Half-Sole Tires saves rubber, tire fabric, shipping space, labor and money. It is our patriotic duty to conserve all of these for the winning of the war.

The Branch House Man

This is one of the Swift & Company Branch House Men.

They are all pretty much alike in the way they feel toward their work—and that is what this ad is about.

They know that most people couldn't get such good meat promptly and in good condition if it weren't for the branch houses of which they are in charge.

They know that the branch house is one of the most important links in the chain of preparing and distributing meat for a nation.

They know that Swift & Company must have its branch houses run at the highest notch of usefulness; that even a Swift &

Company branch house won't run itself, and that it is up to the branch house man to run it properly.

Any branch house man, who doesn't see his work in this light is transferred to some other place with Swift & Company to which he is better adapted.

They are picked men, these branch house men. Every time you sit down to a steak or chop, or cut of roast, you can give a grateful thought to the whole crew of them.

And remember, in a general way, that everything that makes life smoother and more convenient for you, is the result of the thoughtfulness and effort of a lot of people of whom you have never heard.

Swift & Company, U. S. A.
